Is that Version 2.7 on the horizon?

Yes! SuperLink Version 2.7 is scheduled for production cut over on September 29, 2000.

Highlights include:

- **New and enhanced Alerts and Views**
- **New data and views for Condition Monitoring**
- **A new Performance database**
  Balanced scorecard and goal reporting
- **NED Forms work flow**
  Add workflow and "turbo tax" concept to generate the appropriate NED forms based on activity.
- **Enhancements to Risk**
  Top Holder view
  New generic risk categories for CA, others
  Watch List (capture of Banking Supervisor's **KNOWLEDGE**)

More details to follow......

(Please note, due to the enormity of this release, you will not be able to access SuperLink on September 29 until notified of our successful production implementation.)
